

Falun Dafa - 27th Anniversary Introduction to Public

May 2019

I am very pleased to extend my sincere best wishes to all practitioners of Falun Dafa celebrating the 27th anniversary of the introduction of your self-improvement system to Canadians.

For twenty-seven years the dedicated members of Falun Dafa have promoted their beliefs in harmony and health in society through traditional practices that originated in China. This commitment to the improvement of the human spirit and the mental, moral and physical wellbeing of individuals is based on the guiding principles of Truthfulness, Benevolence and Forbearance.

As you reflect on your achievements here in Canada, it is important to continue to shed a light on the challenges faced by fellow practitioners in China through your outreach and awareness efforts, especially of the horrific illegal organ harvesting scheme perpetrated against prisoners of conscience in China.

I wish all followers of Falun Dafa continued spiritual growth, harmony and health.

Kindest regards,
