To Shen Yun Performance Arts:

The performance of Shen Yun does a magical job of reviving 5,000 years of Chinese culture and civilization.

The definition of Shen Yun – the beauty of divine beings dancing in the heavens – is an accurate representation of the beauty and grace that these talented performers portray as they are telling the heroic tales of their culture with their breath-taking music and dance.

A Shen Yun Performance features some of the world's most talented, and classically trained dancers, who take the stage in a unique tale featuring the East and the West to create one amazing performance that captivates the entire audience.

I wish the Shen Yun performance continued success in Toronto and all of Canada, and I am sure that anyone who participates will be very captivated throughout the entirety of the performance!

Sincerely,

A handwritten signature in blue ink that reads "Sheref Sabawy".

Sheref Sabawy,
Member of Provincial Parliament
Mississauga Erin – Mills
