Greetings on Falun Dafa Day 2021

On behalf of the constituents of Yorkton—Melville, Saskatchewan, I would like to extend my best wishes to all marking Falun Dafa Day 2021.

Through the promotion of the principles of truthfulness, compassion and forbearance, tens of millions of people in over 100 countries have benefitted from the teachings of Falun Dafa.

Despite every effort by the oppressive Chinese regime to stifle the growth of Falun Dafa within its borders and to intimidate practitioners elsewhere around the world, the core human values of peace, tolerance and harmony continue to form the foundation of its teachings.

The persecution and marginalization of Falun Dafa practitioners reminds us that many believers around the world face tremendous danger because of their beliefs.

The peaceful practice of one's personal beliefs – religious or not – is a fundamental human right. Those who believe in the core values of Falun Dafa must have the right to practice and promote its teachings without fear of persecution.

On this Falun Dafa Day and beyond, I continue to stand with you for the religious freedom you deserve.

Please accept my very best wishes.

Sincerely,

Cathay Wagantall
