Each year, in over 100 countries, including Canada, practitioners and supporters of Falun Gong gather to commemorate May 13th as World Falun Dafa Day.

Truthfulness, Compassion and Forbearance continue to be the guiding core values of Falun Dafa. These values should serve as inspiration and guidance to each of us as we begin the responsibilities and relationships of each day.

We can all be a better person, friend, and neighbour by living with a commitment to peacefulness, compassion, and respect for each other.
